INMAN INNOVATOR AWARDS

# 2017 MOST INNOVATIVE

They are the visionaries, the forward-thinking, the stubborn, the obsessed, the tech-savvy, the creative minds always pushing boundaries. They are entrepreneurs pushing the old ways aside, data scientists discovering new ways to examine behavior, marketers inventing new ways to showcase properties, agents developing new ways to reach clients, companies building new technologies, brokerages creating whole new ways of doing business. They are the Inman Innovator Finalists, and they're leading us into the future of real estate.

Who will win? The 2017 Inman Innovators will be revealed at Inman Connect in San Francisco the week of August 7-11, 2017, followed by the not-to-be-missed party that'll wrap up Inman Connect San Francisco and celebrate the Inman Innovators.

"We are honored to celebrate so much creativity and invention," said Inman publisher Brad Inman. "Never in the history of the Innovator Awards has there been so much innovation and, therefore, never has our list of finalists been so large -- these are exciting times."
